"Restore It - Don't Strip It"

Since 1969

Restor-A-Finish®

- Eliminates white heat rings and water marks
- Blends out scratches and blemishes
- Restores color and luster to faded finishes
- Will not dissolve existing finish

Use the color chart on the back of this brochure to help select the Restor-A-Finish shade that best matches the finish you are restoring. Restor-A-Finish is available in nine finish colors: Neutral, Maple-Pine, Golden Oak, Cherry, Walnut, Mahogany, Dark Walnut, Dark Oak, and Ebony Brown.

"Restore It - Don't Strip It!"

With a simple wipe-on, wipe-off process, most finished wood surfaces that seem to need a complete refinishing job can be restored in a few minutes. White heat rings and water marks, sun fade, oxidation, smoke damage, and most other blemishes can be quickly blended away. Before you go to the extreme of stripping it, try restoring it!

How Does It Work?

Restor-A-Finish is a unique finish-penetrating formula that contains a small amount of stain combined with just the right amount of solvent and restoring oils, giving it the ability to permanently restore the existing finish without removing, softening, or stripping it. Restor-A-Finish penetrates faded lacquer, shellac, and varnish finishes to bring back the original color and luster. It restores the depth of grain, going much deeper than temporary "scratch cover" products. Restor-A-Finish penetrates and permanently restores most wood finishes without removing any of the existing finish.

Restor-A-Finish works best when applied with a small pad of cloth, or for severe white rings or oxidation, super fine (0000) Steel Wool. For carved surfaces, you may use a small paint brush or soft toothbrush. Never pour Restor-A-Finish directly onto the finish.

-Restor-A-Finish Helps To Remove-

- White Heat Rings
- Water Marks
- Smoke Damage & Oxidation

-Restor-A-Finish Helps To Revive-

- Faded Finishes
- Minor Crazed or Checked Finishes
- Scratches & Abrasions

Precautions:

DO NOT APPLY POLYURETHANE OVER RESTOR-A-FINISH. DO NOT apply Restor-A-Finish to imitation wood finishes or use as a stain. Be careful to protect fabric, carpets, or linoleum when applying Restor-A-Finish, as it may leave a permanent stain. If spilling does occur, immediately scrub area with soap and water or a stain remover and wipe dry. Be sure to apply to a small area at a time when using Restor-A-Finish. **Always wipe dry.**

Feed-N-Wax®

- Enhances the natural beauty and depth of grain in finished and unfinished wood
- Prevents drying and deterioration of all wood finishes
- Polishes all wood surfaces to a soft luster with a protective coating of carnauba wax and beeswax
- Use Feed-N-Wax after Restor-A-Finish to maintain the restored finish
- Not intended for food-prep surfaces

Where To Use:

Feed-N-Wax can be used on all finished and unfinished wood surfaces. Feed-N-Wax was developed to be the perfect follow-up to Restor-A-Finish when you want to maintain that "just-restored" look to your wood finish.

When To Use:

Over time, wood furniture, cabinets, and especially antiques, tend to "dry out" and fade. Feed-N-Wax helps introduce conditioning oils that "feed" the wood, while leaving behind a protective coating of beeswax and Brazilian carnauba wax to polish and shine. Feed-N-Wax may be used whenever the wood or wood finish looks faded or dry.

Orange Oil/Lemon Oil Wood Polish

- Dust, clean, and polish all wood and wood finishes with real citrus oils
- Leaves a nice shine and a fresh citrus scent
- Safe to use on teak and other oiled woods
- Replenishes natural oils in unfinished and finished woods

Use Howard Orange Oil and Lemon Oil on all wood surfaces including kitchen cabinets, tables, chairs, desks, paneling, even antiques. These oils will help keep your wood from drying out while restoring depth of grain and natural beauty to the wood. They are both easy to use and excellent for polishing, conditioning, and nourishing all wood surfaces.

*Does not contain silicone oil or linseed oil
Not intended for food-prep surfaces*

Restor-A-Finish®

Choose the color that best matches the finish of your wood.

Butcher Block Conditioner

- Ideal for butcher blocks, salad bowls, wooden cutlery, and wooden toys
- Revitalizing blend prevents drying and cracking
- Natural waxes provide another level of protection
- Exceeds U.S. FDA regulations for direct and indirect contact with food

Cutting Board Oil

- 100% Food-Grade Mineral Oil
- Colorless, Odorless
- Will not go rancid
- Safe for all surfaces that come in contact with food

Leather Cleaner

- Product Features -

- All natural ingredients
- Environmentally friendly and biodegradable
- Safe on stitching
- pH Balanced and alkaline-free

- Product Uses -

- Leather furniture
- Automotive leather
- Leather luggage, shoes and accessories
- May also be used on vinyl and plastic

Leather Conditioner

- Deeply penetrates into leather
- Restores sun-faded leather
- Resists cracking, scuffing, and dry rot
- Easy to apply with a clean cloth
- Contains no harmful solvents or silicones
- Not to be used on Suede or Nubuck

Clean-A-Finish Wood Soap

Clean-A-Finish Wood Soap effectively cleans all wood surfaces using a traditional blend of gentle, yet powerful, natural soaps. It easily breaks down grease and grime on antiques, kitchen cabinets, and dining tables. Safe to use on painted surfaces, plastics, upholstery, and vinyl.

- Non-Toxic and biodegradable
- Cleans wood finishes before polishing, waxing, or restoring
- Easily removes wax build-up from wood
- Clean fresh scent
- Does not contain ammonia or bleach

Restor-A-Shine™ Polishing Compound

- Safely buffs out fine scratches, oxidation, and haze
- Revives dull areas and eliminates steel wool marks and other surface blemishes
- After using Restor-A-Finish, use Restor-A-Shine to buff furniture finishes to a high shine
- Use for final buffing stage to a newly applied high gloss finish
- Specially formulated for wood finishes, including floors
- Will not lift veneer or soften a hard finish
- Creamy formula that can be used with an electric buffer
- Does not contain silicone or linseed oil

SunShield™ Wood Conditioner

- Prevents drying, cracking & deterioration
- Maintains the natural beauty and depth of grain
- Easy to apply with a gel-like consistency
- Polishes all wooden furniture to a soft luster
- Protects with a coating of natural waxes
- Contains UV inhibitors to help reduce sun fade
- Does not contain silicone or linseed oil

Citrus-Shield™ Paste Wax

The color chart on the left should be used as a general guide. The small amount of color in Citrus-Shield is meant to enhance the existing tone of the wood it is applied on, not to be used as a wood stain.

On Finished Wood

Citrus-Shield Premium Paste Wax is excellent for polishing and protecting wood finishes on antiques, furniture, cabinets, paneling and wood floors. It contains a high concentration of Brazilian carnauba wax for a longer lasting shine and superior protection. Our unique formulation also contains a UV inhibitor that helps protect finishes from the sun's harmful rays. Citrus-Shield is the ideal follow-up to Howard Restor-A-Finish.

On Unfinished Wood

Citrus-Shield Premium Paste Wax is the woodworker's choice for primitive pines and other unfinished woods where an easy application and a beautiful, natural-looking wax finish is desired. Tones and enhances the woods natural look.

May also be used on concrete, marble, metal, and painted surfaces.

Silver Polish

- Quickly cleans and polishes all silver, silver plating, appliances and chrome fittings
- Special Pine-Ola blend retards tarnish and keeps silver bright
- Safely cleans and polishes without using acids or harsh abrasives
- The choice of silversmiths since 1920

Copper & Brass Polish

- Cleans and polishes all ornamental copper, brass, and bronze
- Special Pine-Ola blend hinders tarnish for a longer lasting shine
- No harsh chemicals or abrasives

Natural Cleaning Products
