Exceptional Quality and Finish

The Purdy® Difference

The proprietary Purdy® process of tipping and flagging creates the perfect brush for applying and laying off paint. Only the finest raw materials are used, without exception. Each step in our production process — from formulation to finishing — represents a standard for hand craftsmanship and quality unmatched in the industry. As a result, painters rely on Purdy® tools for:

- Outstanding Finish Appearance
- Proven Durability
- Excellent Paint Distribution
- Better Overall Coverage With Less Effort
- Greater Efficiency In Production
- Smoother “No Drag” Brush Strokes
- “Cutting-in” Capability
- Superb Paint Lifting Capacity

For today’s professional painter, nothing can match the day-in, day-out performance of Purdy® high quality paint applicators.

Each brush is “signed” with a personalized sticker from the brushmaker

What Width Works Best?

For the best results, choose a Purdy® brush in the right width for your job.

1" – 2"

Ideal for trim, touch-up and small surface projects such as window sashes, small furniture, shutters, screens and mouldings. Angular sash brushes are great for painting around windows.

2½" – 3"

The choice for medium sized surfaces such as cabinets, baseboards, cupboards, shelves, doors, beams, tables, fences, gutters, and steps.

3½" – 6"

Best for larger surface areas such as walls, ceilings, exterior house painting, boat hulls, paneling and floors.

The Perfect Keeper

Our brush keepers provide a consistent look and clear communication of product benefits.

Featured Products

Purdy® offers painting tools for all your painting needs – from surface preparation to painting, all the way to clean up. Check out our featured tools – the highest quality you expect from Purdy, designed to make every step easier!

Marathon™ Roller Covers

Marathon Roller Cover (See page 36)

Marathon™ is Purdy's most durable roller cover for maintained performance over time. Formulated with an exclusive blend of nylon and polyester fabric.

- Lasts longer, delivers consistent performance over time
- Smoother finish with less lint
- Paints further, less trips to the bucket
- Available in 4", 7", 9", 14", 18", Wire and Jumbo mini roller covers

12"-18" Roller Cover Program

Dual Roll-Off 5 Gallon Bucket (See page 54)

Experience increased productivity, durability and comfort. This premium 5 gallon bucket features:

- High-efficiency grid pattern for ease-of-use with multiple painters
- Pour spout for easy paint transfer and an ergonomic comfort grip handle
- Caster wheel compatible

12"-18" Premium Adjustable Frame (See page 52)

- Patent pending cam latch system for quick adjustment
- Coverage with less effort
- Compatible with all extension poles

12"-18" Roller Covers (See pages 34-38)

- Covers more surface faster and easier

Brushes

The Art of Brushmaking

Purdy® brushes are hand-made without compromise, in much the same way they were over 85 years ago. Many of Purdy brushmakers have two to three decades of service – some even over 30 years. But, before someone is trusted to craft brushes on their own, they go through extensive training for two full years by their peers. Each Purdy brush is “signed” by the person who made it. This is done by a personalized sticker with the brushmaker’s name/signature. This is a mark of pride in a job well done. Purdy wants professional painters to know the tool in their hand was made to the highest level of quality by someone who cares as much as they do when it comes to putting their reputation on the line.

XL™ Elite™ Series

Ultimate performance and versatility
Designed for use with all paints and stains

Get superior results and ultimate performance from the versatile XL Elite Series by Purdy®. The unique blend of high performance DuPont® solid, round and tapered (SRT), Chinex® and Orel® filaments makes the XL Elite ideal for use with any type of paint. Especially, high-solid, low VOC paints and heavy-bodied latex coatings which can be difficult to apply smoothly. When the job is complete these premium filaments make clean up fast and easy.

“ After 23 years in the construction trade, I've used different products but always returned to Purdy. I would recommend to a friend. ”

— Professional Painter from Berea, KY, USA

Pro-Extra® Series

Holds more paint for increased production
Designed for use with all paints

For extra-productive painting, get the extra large holding capacity of Purdy® Pro-Extra® brushes. We blend the finest Tynex®, Chinex®, and Orel® filaments for brushes that out perform the competition. The flagged and tipped filaments hold more paint but also have a smooth and even release. Pro-Extra® brushes will withstand the most abrasive surfaces and are ideal for exterior jobs and medium to heavy bodied paints.

Chinex® Series

Excellent paint release with superb cleanability
Designed for use with heavy bodied and low VOC paints

We start with high quality solid, round, and tapered (SRT) Chinex® Nylon from DuPont®. With filaments that are seven times stronger than hog bristle, these brushes go the distance, and because they absorb little moisture, clean up is quick and easy. Purdy® Chinex® brushes will do the heavy lifting for tough painting jobs indoors and out.

“ I purchased a 3 pack of your Purdy® brushes and saw that they were made in the USA. I could not believe what a great product you make. I will buy more next time I get a chance. It is good to see American craftsmanship. Thank you! ”

— Vikki M., Forsyth, MT

Syntox™ Series

Provides a mirror like finish
Designed for use with all stains and clears

Purdy® uses the highest quality solid, round and tapered (SRT) filaments from DuPont® in the softest brush offering. Syntox brushes outlast Ox-Hair filaments and create an ultra smooth finish on any surface. Plus, these brushes work great with both water and solvent based clear finishes.

Nylox™ Black Series

Provides an ultra smooth finish
Designed for use with latex paints

Purdy® Nylox Black, formerly Black Nylon, is our original synthetic brush. We engineer our Nylox Black brushes to pick up and release a maximum amount of paint while delivering ultra smooth coverage and sharp clean edges. Nylox Black brushes are handcrafted from the finest 100% solid, round, and tapered (SRT) DuPont®, Tynex® nylon filaments. For smooth results with today's waterbased paints, turn to Purdy Nylox Black for long lasting performance.

White Bristle Series

Provides an ultra smooth finish
Designed for use with oil-based paints, stains and clears

Purdy® White Bristle brushes create an ultra smooth finish with even the most challenging coatings. White Bristle brushes are effective with fine oil-based paints, stains, varnishes, shellacs, lacquers and polyurethanes. For woodwork, furniture, marine or any other application that calls for an extremely smooth finish, these brushes will give outstanding results.

Black Bristle Series

Natural bristle for a smooth finish
Designed for use with oil – based paints and stains

Purdy® starts with the world's finest black bristles to produce brushes of rare quality, durability and performance. Purdy® Black Bristle brushes hold and deliver more paint than any other natural material, and the naturally flagged tips produce smooth results on a wide range of surfaces.

Ox-Hair Series

Our softest natural bristle

Designed for use with oil-based paints, stains and clears

We carefully blend Ox-Hair bristles with the right amount of natural white bristles for an extra soft brush that holds its shape. From fine artistry to staining furniture, doors or woodwork, nothing can match the glass-like finish produced by these bristles.

Roller Covers

Purdy® roller covers are made with the same devotion to quality as our brushes. Our roller covers load well, reduce splatter, and release evenly. Purdy roller covers are available in a variety of sizes which makes these great for any job no matter how big or small. There is a roller cover to meet every need whether it is a lint free finish, heavy duty coverage or edge to edge application. Pros demand quality and performance. Purdy roller covers deliver.

Mini Rollers

Purdy® has taken the same quality and reliable fabric from their core roller cover lines and added them to the growing category of mini rollers. Purdy mini rollers are available in both wire and jumbo programs that are great for small, hard to reach areas and give the smoothest rolling action to make the job go faster.

The frame and mini roller combo are available in 4" and 6-1/2" sizes and are a perfect tool for cutting in or painting small spaces.

Surface Prep Tools

The hardest part of the job is making sure the surface is prepared properly. If the previous coat of paint isn't removed properly or the surface is not clean and dull it can make the job take longer or leave a poor, inconsistent finish at the end of the day. Pros demand durability and performance and Purdy® delivers with tools that are comfortable, lightweight but durable for the toughest jobs. Our hardworking tools will last job to job and perform best under the most rugged conditions.

Accessories

Purdy® frames, poles, kits and trays are essential to any job. Good quality paints and applicators need good quality accessories in order to make the entire job go as planned. Our frames give the smoothest rolling action and all day comfort. Purdy poles give long lasting performance and our trays and kits are durable to withstand the most demanding conditions. Pros demand quality not only in the tools they use but in the products that assist in the painting process. Purdy frames, poles, kits and trays deliver.

Frames

Premium Cageless Frame

Fits all standard 9" roller covers with a 1-1/2" core. Features a patent pending cageless design for smooth rolling and an ergonomic comfort grip handle to reduce fatigue. A universal threaded end is compatible with all extension poles. Easy cover release for no mess clean up.

“ I am a professional painter /decorator who takes great pride in every job I do, leaving my clients with a perfect finish for every job I do for them. To achieve the perfect finish, I have been using Purdy brushes and rollers for the last 6 years — they have become the only brushes and rollers I use. ”

— Darren D., Glasgow City, UK

Symphony by Purdy®

Purdy® specialty tools create exceptional finishes and quality results. Our full line of decorative tools are built to last, producing beautiful effects quickly and easily. Purdy decorative faux tools can be used in a variety of finishes ranging from softening and blending to dragging and flogging. Pros demand performance and Purdy specialty tools deliver each time.

Symphony by Purdy®

Softening / Blending Tools

Softener / Blenders Badger*

Virtually any decorative finish will require a softening brush. These brushes are made with very soft bristles that "whisk" over a wet finish without leaving brush strokes.

ITEM NO.	DESCRIPTION	SIZE	CASE	UPC
503211400	Long Handle	4"	2	033572321143

Softening Brush

Specially designed pure bristle brush provides a softening effect, removes hard lines and gently blends colors for professional looking results.

513240900	9"	6	033572324090

“ I have used the Symphony line for over 10 years. When I was just learning to paint, I started using the Symphony line as a self-taught faux finish. Now, 10 years later, as a working professional Fine Artist, I am still in love with the Symphony products. Whether you are a Do-It-Yourself Mom or a professional artist, the Symphony line not only makes it easy to paint your own walls, but also sets you up for success. I truly believe the Symphony products make me a better painter! ”

— Nichole Blackburn, Owner / Creative Director of Celadon Studio and CeladonStyle.com

Symphony by Purdy®
