WHY SHUR-LINE® ACCESSORIES?

Shur-line, founded in 1945, is committed to designing and manufacturing the highest quality paint application products. Focusing on consumer-driven innovation, Shur-line strives to develop products that make painting easier, faster and fun. Shur-line offers a full product line of roller covers, brushes, paint trays, poles, frames, surface prep and edging tools. Originally named EZ Paintr, the company was recognized as the first to introduce the concept of do-it-yourself painting to the market. Some of the company's most notable innovations include the first slip-on roller cover, a synthetic pile fabric designed for latex paint, the first blade edger and the first two-wheeled edging tool.

Today's Shur-line is committed to re-energizing the innovation engine and launching a steady stream of new products specially designed with the do-it-yourself consumer in mind, products that make their painting projects easier, faster, and more fun. All the while, Shur-line will embrace its key retailers' branding strategies in order to become better partners in the paint aisle.

SHUR-LINE®

PRODUCT & ACCESSORY CATEGORIES

- 4 BRUSHES
- 8 ROLLER COVERS
- 10 CONVENIENCE TOOLS
- 12 MINI ROLLERS
- 14 TRAYS, FRAMES,
POLES & ACCESSORIES
