

General Finishes Pearl Effects

Pearl Effects are water based decorative, acrylic pearlescent colors used to create specialty finishes. They can be brushed, dry brushed or sprayed on. Pearl Effects are designed to be applied over General Finishes Milk Paints, stains and water based topcoats to create a translucent metallic pearl effect.

General Finishes Glaze Effects

Glaze Effects are translucent water based colors designed to create beautiful decorative finishes such as distressing, antiquing, marble effects, burnishing, color washing and wood graining. They may be applied over General Finishes Milk Paints, stains and water based topcoats, or intermixed with GF Milk Paints & Topcoats to create custom looks.
