Complementing Water Based Products:

General Finishes Water Based Wood Stains
Wood Stains spread easily, can be repaired, blend effortlessly and have plenty of open time. They are fast drying, low-odor and clean up with soap and water.

General Finishes Glaze Effects
Glaze Effects are translucent, water based colors for use over any water based stain or paint to create beautiful decorative finishes such as distressing, antiquing, marble effects, shabby chic, burnishing, color washing, rag rolling and wood graining.

General Finishes Pearl Effects
Pearl Effects are water based decorative, acrylic pearlescent colors used to create specialty finishes. They may be applied over General Finishes Milk Paints, stains and water based topcoats to create a translucent metallic pearl effect.

General Finishes High Performance Polyurethane Topcoat
Winner of *Fine Woodworking's Best Overall Choice* award, High Performance is the hardest, most durable consumer topcoat on the market today. This is the best product on the market. The Best!

General Finishes Flat Out Flat
Flat out Flat is a truly "Flat" water based topcoat with a velvety look and feel. Made with a durable cross-linking acrylic, its performance characteristics are similar to GF High Performance. It may be used over or under High Performance.

Finished in Antique White with a
Java Gel Stained Top

General Finishes Milk Paints

Milk Paints are durable, pre-mixed acrylic paint formulated for interior and exterior projects. They can be used alone, or layered over another Milk Paint color, Glaze or Pearl for a decorative finish. Milk Paints are compatible with existing finishes, stains, and other paints. They will adhere to a variety of surfaces including wood, fiberglass, PVC, primed steel, vinyl and most composite materials. Always test a small area to ensure adhesion.
