Ola Masters

The Ultimate in Protection and Appearance

Ascend Exterior Water-Based Finish is a clear, durable finish designed for exterior application on wood, fiberglass, coated metal, or painted surfaces. It contains ultraviolet absorbers for advanced sun protection, dries quickly, and cleans easily with soap and water. Use it on properly prepared exterior surfaces, such as railings, outdoor furniture, above waterline marine surfaces, as well as wooden, fiberglass, and steel doors. It can also be used on interior windowsills and door frames for added ultraviolet protection.

Physical Properties	
Resin	Waterborne Acrylic
Solids by Volume	29%
Solids by Weight	32%
VOCs	<140 g/L

Gloss Measurements (at 60°)
